# **COMPREHENSIVE ACADEMIC PLAN (CAP) Summary of Implementation**

## VISION

To establish and sustain a community, business, and learning 'ohana (family). Within this framework, inquiry and project-based curricula will stress independent thinking, development of the individual's mind and talents, cooperative learning, sense of self within the neighborhood and the world-wide community with particular attention to the precious and unique environment of Hawaii, both as an island ecology and a place where ethnic diversity is the norm.

## MISSION

Our mission is to create an 'ohana which is conducive to the recognition and development of individual talents. Thematic and experiential learning experiences are provided which focus on how students construct knowledge using creative and critical thinking. A forum for the development of the ability to recognize and differentiate a quality result or product is offered. Classroom experiences are connected to real life experiences so that students can grow in the understanding of themselves in relation to their community and the world.

## **Performance Challenge**

### **Challenge/Need 1**

Challenge/Need 2

#### Challenge/Need 3

Decreased "On-time" Graduation Rate

Lower than Expected Academic Achievement and Academic Growth in Mathematics, ELA, and Science Decreased Engagement Rates

INKS

**SW 1:** The school's Academic Plan is based on a comprehensive needs assessment of the entire school that takes into account information on the academic achievement of children in relation to the challenging State academic standards, particularly the needs of those children who are failing, or are at-risk of failing to meet the challenging academic standards.

Page 1 Other: Submitted Comprehensive Needs Assessment (CNA)

SW 2: The school's Academic Plan is developed with the involvement of parents and other members of the community to be served and individuals who will carry out such plan, including teachers, principals, other school leaders, paraprofessionals, complex area staff, to the extent feasible, and if appropriate, specialized instructional support personnel, technical assistance providers, school staff, if the plan relates to a secondary school, students, and other individuals as determined by the school.

The school's Academic Plan is developed with a variety of stakeholders. Our planning team included parents, members of the community, and individuals who will implement and monitor the plan such as teachers, school leaders, paraprofessionals, and other school staff determined by the school. Schools with a high school division should include a student on the planning team. Planning team members and their roles are listed below (SW2)

|    | Staff           | Position                             |
